

MINERS RESCUED.

The Three Imprisoned Men Still Alive.

THEY WERE FOUND JUST IN TIME

Taken from the Mine After Being Imprisoned for One Hundred and Fifteen Hours Without Food or Light—How Their Rescue Was Accomplished.

WEST NANTICOKE, Pa., Feb. 10.—The three miners who were hemmed by water and supposed to be drowned in No. 3 colliery, of the Susquehanna Coal company, last Wednesday afternoon, were rescued alive Monday morning. The names of the men are: John W. Rineer, William Cragel and Michael Shelank. They could not have lived much longer on account of the scarcity of air.

The men were found by the gang of rescuers at the top of a cross heading, the highest point they could reach, and which was only six feet above the elevation reached by the flood. Here they had waited in darkness and gloom, but not without hope for rescue. They could hear the throbbing of the great pumps, 660 feet away.

It was not until after 2 o'clock Monday morning that George Bender managed to float upon a raft across the water which yet filled the bottom of the main gangway. The imprisoned men heard him as he reached the side they were on and faintly came thence to him: "We are up here, all alive and waiting for you." Bender took up the joyous shout and sent it across the water in thrilling measures: "The men are found. They are alive. Alive."

Two other hardy miners, Anthony Jones and William Bowen, at once plunged into the murky abyss, wading and swimming to the other side, and soon others followed them. The men were reached and brought out of the heading to the main gangway. Milk was given to them as nourishment, and at 5 o'clock they were carried upon the shoulders of the rescuers.

When the rescuers came to the men they were rapturously greeted, the three miners embracing and kissing them. The two little villages across the river from here, where the men lived, are filled with unspeakable joy over the rescue.

The rescued men were almost exhausted from their 115 hours' imprisonment and will require care to bring them through. Their sufferings have been intense, but they were buoyed up by the hope of being rescued, and the outcrop workings being fairly well ventilated, they were able to secure enough pure air to keep them alive.

As the facts of the wonderful rescue from the Grand Tunnel mine have become known about the mining regions the people are intensely excited. The experience of the men is most thrilling. After they had reached a point of comparative safety from the flood they found that only a slender piece of wood served to keep back tons of loose coal that had fallen into the mouth of the cross cut. When they found the inclined cut in the vein and climbed up its almost perpendicular passage they managed to obtain a piece of loose timber. This they placed across the opening of the tunnel, and after getting it safely lodged, climbed upon it for a seat.

There they sat on this piece of timber scarcely three inches wide, for over four days. Behind them was the immense body of coal held in place by a small piece of "prop," and fearing to dislodge it the men dared not even rest against it. In a short time their supply of oil gave out and they were in total darkness. Rineer, the most experienced of the men, was able to keep his head in their long imprisonment, but both Cragel and Schilling at times became crazed. Cragel imagined he saw a mine car and jumped into the water to ride to the slope with it. He was rescued and got back to the perch by Rineer. Schilling was more easily managed but he was sobbing constantly.

Wednesday night passed and then Thursday came, and then the men lost track of the time. The first welcome sound reaching their ears was the "Punk" of the pump. The first message between them and their rescuers reached them at 3 o'clock yesterday morning. The work of reaching the imprisoned miners was duringly accomplished by George Bender, who, when he found his progress stopped by low timbers, dipped his raft under them, following by diving. He lost his hat and miners' lamp, but William Bowen, who was swimming the gangway, passed the lamp through a break over the timbers and Bender went on with his search.

When he found Rineer, Cragel and Schilling they were up in the cross-heading perched on a "legging" and at the highest point they could get in the mine. This was but a trifle more than six feet above the elevation reached by the flood, and here they were without food since Wednesday morning. At half past 5 the water was down enough to let the men out by floating them out at a time on the raft across the flood gangway, their imprisonment making them too weak to risk the danger of the water. The physician in attendance says the men must subsist on beef tea for a number of days and they will be all right in a short time, except possibly Rineer, who is slightly poisoned in his feet from the sulphur water of the mine.

FINDLAY, O., Feb. 10.—Five table glassware houses in Pittsburgh, one in Wheeling, one in Fostoria and one in this city, joined yesterday in an application for a charter for a new trust combination which will be known as the United States Glass company, with a capital of \$1,000,000. It is said to be the beginning of the combine which will soon embrace all the table glassware factories in the country.

IN THE CASE OF RUSSIAN JEWS.

Baron Hirsch's New Plan. Another Very Liberal Donation.

NEW YORK, Feb. 10.—Baron Hirsch has cabled to Jesse Seligman, as representing the trustees of the Hirsch fund for the benefit of the Hebrew immigration to this country, that the trustees may draw on him for 12,000,000 francs to use in carrying out the work undertaken. If the income is not sufficient to do all it is intended for, the trustees are authorized to use part of the interest and Baron Hirsch will make good the amount. For nearly a year Baron Hirsch has furnished \$10,000 a month for work among the Hebrews in the United States.

Baron Hirsch recently gave \$240,000 for the relief of the Russian Jews in the United States. This was to be expended in the education of boys and girls and for manual training in mechanics and agriculture.

BARON HIRSCH.

The donor of this magnificent sum is a Hebrew, born in Bavaria about fifty years ago. His father was originally a cattle dealer. In early life the present baron engaged in banking and railway building, and amassed great wealth in railroads. The baron married a lady of fortune, a Miss Bischoffsheim, and for some years the richly endowed pair have devoted their time to deeds of philanthropy. Their good work has been done mainly in the east, throughout Turkey and Egypt, where they have established educational and industrial schools.

One of the baron's plans was to expend \$10,000,000 for educational purposes in Russia, but when he named the proviso to the Russian government that in the distribution of benefits from this fund there should be no distinctions made on account of race or religion the offer was declined. After this the baron turned his attention to the condition of the Russian Jews in the United States, with the result above stated.

How the News Was Received in London.

LONDON, Feb. 10.—The news of Baron Hirsch's immense gift for the benefit of Russian and Polish Jews emigrating to the United States has been received with considerable satisfaction in London, as there is strong opposition both among the working classes and business men to any more immigration of Russian Jews to England, and Lord Salisbury's government has been asked to interfere to prevent it.

The latest arrivals from Russia on their way to America are of the most squalid description, and it is probable that local authority would have interfered to prevent their remaining here even if the imperial government had not acted.

It is hoped that Baron Hirsch's donation will induce the United States not to send back to Europe the many thousands of Russian Jews who are preparing to swarm across the Atlantic and settle in New York and other American cities, and most of whom are destitute. An Odesa dispatch says that instructions have been received from St. Petersburg to facilitate the emigration and get rid of all the Jews possible.

A TORNADO

Strikes Helena, Ala., Doing Considerable Damage and Injuring People.

BIRMINGHAM, Ala., Feb. 10.—A tornado struck Helena yesterday afternoon about 4 o'clock. A dull, roaring sound was heard, and the people had only time to get to their doors when they saw a black whirling cloud skim over the top of the hotel in the northern part of the village.

It next encountered the telegraph poles, twisting them off like pipe stems. Coming down the railroad track it laid the station building that on the platform and then crossed the track and leveled the store of Thomas Davidson. C. T. and James Davidson were in the store, and both were hurt about the head, and P. D. Lee was bruised about the body.

The tornado then lifted and passing over a three-story building struck the Helena rolling mill, about 200 yards from the station, taking the roof off of both the mill and stock house. The cloud passed on in a southerly direction, and a report has reached here that it struck La Boga in its course.

A Barber's Crime.

CHICAGO, Feb. 10.—Jesse Osborne, a barber, employed by Ed. Carrier, at 113 Blue Island avenue, last night shot and fatally wounded Blanche Clement at her home, then fired a bullet into his left breast, but did not strike a vital spot. He afterwards walked down street to the barber shop, where he is employed. While shaking dice officers entered and arrested him. Osborne will recover, and two officers remain near his cot in the hospital ward as guards. Jealousy was the cause of his act. Osborne lives in Detroit, and is 30 years of age.

PORTLAND, Ind., Feb. 10.—Eddie Rowe, 13 years old, son of W. D. Rowe, of Coldwater, O., died here yesterday while having a surgical operation performed on his leg, and while under the influence of chloroform. Heart failure was the trouble.

INDIAN POWWOW.

A Conference Held With the Sioux Delegation.

SPEECH FROM SENATOR DAWES.

He Tells the Indians What the Intentions of the Government Are and What Will Be Done for Them the Coming Spring. What the Chiefs Had to Say—Proceedings of the Senate and House—Other Washington Dispatches.

WASHINGTON, Feb. 10.—The Sioux Indian delegation held a conference with Commissioner Morgan at the Indian bureau yesterday. The commissioner made a few brief remarks to the delegations in which he promised to visit their agencies and homes next spring. He then introduced Senator Dawes, of Massachusetts, who told the Indians how the Indians laws were enacted, how slight mistakes and omissions could be made. He told them that if congress had failed to enact laws which were promised he would be glad to have them mentioned.

Senator Dawes told the Indians they should not blame the government for weather and failure of crops. The government could not help this, but they could help the Indian in many other ways. The government, he assured them, wanted to help them build houses and wanted to give them all kinds of agricultural implements. He said that the Sioux nation would be the greatest tribe on earth if they would co-operate with the government in spending the \$3,000,000 they would soon receive.

White Ghost said that at a council of the Indians several nights ago they unanimously decided that military agents were not wanted.

Little No Heart wanted large school houses built on their reservations for the thorough civilization of Indian children. He also wanted good civilian Indian agents in stead of military agents.

Commissioner Morgan at this point put the question formally to the Indians whether they wanted civil or military agents. Every Indian in the delegation, with the exception of Maj. Sword, said they wanted civil agents.

Mad Bear, of the Standing Rock agency, wanted the children educated at home for the reason that when at home they would educate the parents. Mad Bear accused the military agents of inciting trouble among the Indians rather than suppressing it because they were anxious to be constantly kept before the eyes of the public.

The other speakers were John Grass, Wizi and One-2-Hay-With. The powwow then adjourned until Wednesday next.

Senate and House Proceedings.

WASHINGTON, Feb. 10.—In the senate yesterday the credentials of Daniel W. Voorhees and Henry C. Nansbrough as senators from the states of Indiana and North Dakota, respectively were presented and filed. A resolution was adopted calling on the president for correspondence relating to the importation of products of the United States into Brazil.

Mr. Blair's motion to reconsider the vote recommitting the eight hour law was rejected and the bill was sent back to the committee on education and labor.

The house copyright bill was then taken up and discussed, until 6 p. m. when the senate took a recess until 8 o'clock.

There was but a small attendance of senators when the recess ended. So a short executive session was held, and when the doors were reopened attention was called by Mr. Fankner to the fact that there was no quorum present. The roll was called and only thirty-nine senators, six less than a quorum, responded.

Mr. Manderson moved the sergeant-at-arms be directed to request the attendance of absent members.

Mr. Harris moved an adjournment, and the senate, at 8:40, adjourned.

In the house, after an unsuccessful effort to consider bills pertaining to the District of Columbia, the sundry civil appropriation bill was taken up in committee of the whole, and after some discussion it was passed. The legislation appropriation bill was then taken up, but without disposing of it the house adjourned.

Surplus in the Treasury Increasing.

WASHINGTON, Feb. 10.—The surplus in the treasury is gradually creeping up, and at the end of business yesterday was \$20,000,000. As this will be required to meet pension payments the latter part of this month and the first of next month, no funds in addition to those now being daily purchased, four-and-a-half per cent., will be purchased.

Condemnation.

WASHINGTON, Feb. 10.—The senate in secret session last night confirmed the following named postmasters: Frank Ellis, Minn.; J. W. Crawford, Richmond, O.; Thomas Starry, Lebanon, O.; John Zmistein, Cincinnati, O.; Edward Lonsdale, Fremont, O., and J. C. Newcomb, Ripley, O.

TEXAS, O., Feb. 10.—The feeling concerning the action of the law and order element in enforcing the laws compelling the closing of saloons on Sunday is growing in intensity. Sunday night W. L. Myers, a leader in the temperance movement, entered the back door of the Commercial house saloon and in response to an inquiry of the proprietor, W. C. Hawkins, concerning his business, said he just wanted to satisfy himself that the place was open.

Hawkins then assaulted him and beat him up terribly. This morning Myers received a notice embellished with the usual skull and cross bones, warning him to either desist from meddling in other people's business or leave the city at once.

ARCHES.

A Number of Arches in British Columbia.

LONDON, Feb. 10.—Several collisions between steamers occurred here last night at Gravesend. The steamer Caroline from Grangemoth, for London was in collision with the steamer Lambeth. The Caroline sank shortly afterward. The Lambeth subsequently collided with the steamer Malvina and both vessels were badly damaged. It was necessary to run the Malvina ashore to keep her from sinking.

The steamer Delambre, from London, for Rio Janeiro, was run into by the steamer Schwann for London, and was badly damaged that she soon filled and sank.

The steamer Meggie, bound from London for Cardiff, has been compelled to return to Millwall, she having been damaged in collision with two unknown steamers.

England Has No Trade With Brazil.

LONDON, Feb. 10.—James Fergusson, of the foreign office, answering a question in parliament yesterday, relating to the reciprocity treaty with Brazil, and as to whether Great Britain would have equal commercial advantages in Brazil with those bestowed by the treaty on the United States replied that Great Britain had no commercial treaty with Brazil and could not, therefore, demand the same trading rights as those bestowed by the treaty on the United States.

France the Victor.

PARIS, Feb. 10.—The Siecle in editorially commenting upon the overthrow of Crispin, says: "France conquered on the day that Crispin resigned, through the effect simply of the propaganda of her well known love for and the necessity for peace. Pacific France replies to Germany that whoever decides the end of the international tension and armaments sides with France."

Senatorial Election in Barcelona.

LISBON, Feb. 10.—The senatorial elections at Barcelona resulted in a victory for the ministry.

WINDOM'S SUCCESSOR.

JOHN F. SWIFT, of California, May Be Appointed to a Cabinet Position.

NEW YORK, Feb. 10.—The Herald's Washington special says: There are good grounds for the belief that President Harrison is considering John F. Swift, of California, in connection with the treasury portfolio.

Mr. Swift is one of the president's intimate friends. It was his intention to give him a place in the cabinet long before his induction into office, and he would have done so had not the California politicians urged the appointment of another gentleman, Mr. M. M. Estee, the president of the last Chicago convention.

The president did not want Mr. Estee and so bluntly informed the Californians. But under the circumstances he felt that he could not consistently appoint Mr. Swift, and he therefore left the coast out of his cabinet considerations altogether. But he took the earliest opportunity of testifying his regard for Mr. Swift by nominating him as minister to Japan within forty-eight hours after his inauguration.

The California politicians believe that Mr. Swift has been already communicated with by cable on the subject, and that if he will accept the vacant portfolio it will be given to him.

New Knows Nothing of It.

LONDON, Feb. 10.—United States Consul New, replying to questions as to the rumors which connect his name with the portfolio of the treasury, said: "I have not received any message from President Harrison and I know nothing about any proposition to offer me the treasury portfolio."

A Big Railroad Deal.

CHICAGO, Feb. 10.—A special to The Herald from Indianapolis says: It was developed yesterday that the visit of United States Senator Brice on Saturday was directly connected with the purchase of the Louisville, New Albany and Chicago railroad by the Lake Erie and Western. Senator Brice and General Manager Bradbury have gone to Louisville, where they are in conference with President Easley, and it is believed that if the deal is not consummated on this trip that it will be shortly. The deal will involve several million dollars.

A Peculiar Suicide.

LAKE CITY, Minn., Feb. 10.—Mrs. Fritz Costenbrock committed suicide this morning in a peculiar manner. She had been sick with erysipelas and was recovering but was subject to fits of despondency. She was found in an unfinished room standing with her chin or throat resting on a cord not much larger than a piece of binding twine, both ends of which had been fastened to the rafters to form a loop. When found she was dead and nearly cold.

A Bride's Sables.

CLEVELAND, O., Feb. 10.—A Marion O. special says: The happy home of Oliver McClinton, a wealthy farmer, living nine miles north of Marion, has been saddened by the clandestine marriage and suicide of his beautiful daughter Dimmie. On Thursday of last week she eloped with Jud. McClinton, of this place, and was married to him at Covington, Ky., and afterwards returned home. Sunday night she took a fatal dose of arsenic.

CLEVELAND, O., Feb. 10.—Maj. Pond, Henry M. Stanley's manager, announced here Sunday that Stanley had decided to give all the gifts which he has received from all the crowned heads of Europe and other admirers to Gen. Booth, of the Salvation Army, for the cause of helping the poor in London. The gifts are valued at nearly \$500,000. They consist of pearls of rare value, gold cups and kindred articles. A number of them were received from Queen Victoria.

THE STRIKE IS ON.

Thirteen Thousand Men Quit Work.

THOUSANDS MORE TO FOLLOW.

The Great Labor Conflict in the Connellsville Coke Region Began—As Both Sides are Prepared for the Fight and Fully Determined, There is No Telling When the Trouble Will End—Other Labor Troubles.

PITTSBURGH, Feb. 10.—The great strike in the Connellsville coke regions was inaugurated yesterday morning and by tomorrow every mine and coke works in the region will be closed down. The miners, to the number of about 13,000, refused to go to work yesterday, the only men now working being the coke-drawers. There are 6,000 men employed at this work, and as soon as they have drawn the coke from the ovens they will quit also. The strike is for an advance in wages of twelve and one-half cents per ton and against a 10 per cent. reduction. Both sides are firm and the duration of the conflict is only a conjecture.

No coal has been mined in any of the pits by the Frick, Schoonmaker or McClure coke companies since Saturday, and no one but the coke-drawers are at work now.

Operators and workers are equally firm in their determination and both are alert to prevent a repetition of the deprivations of the previous strikes.

In the Dunbar district the men are nearly all at work and some of them will remain at work if permitted to do so.

The workers' scale demands an advance in wages of about 1.1 per cent., all coal to be weighed instead of measure, and eight hours to constitute a day's work.

The operators have demanded a reduction of 10 per cent. on all classes of labor. The current wage scale has expired. There are now negotiations for a settlement pending.

During a drunken fight at Fort Hill yesterday Yard Boss Snyder and his assistants were beaten unmercifully by Hungarians. Snyder's assistant was probably fatally injured.

A Railroad Strike.

PITTSBURGH, Feb. 10.—All the yardmen of the Pittsburgh and Western railroad at Newcastle quit work yesterday, and the night yardmen of the same road, at Pittsburgh, quit last night. The cause of the trouble is the non-payment of a large number of hands for two months' time. It is stated by the road officials that the force is being reorganized, and that freight is moving at Pittsburgh as usual. No freight was moving in the Allegheny yards last night however.

United Miners' Convention.

COLUMBUS, O., Feb. 10.—Nearly all the delegates from Pennsylvania, Illinois and Indiana to the convention of the United Miners of America, which meets to-day, have arrived. Pennsylvania is represented by about seventy-five miners, of whom forty are from the Connellsville coke regions.

Legislating Against the Pinkertons.

TOPEKA, Kan., Feb. 10.—The lower house has passed, by a practically unanimous vote, an anti-Pinkerton bill, which prohibits the employment of armed detectives by a company or corporation while a strike is in progress.

FROZEN TO DEATH.

A Number of Lives Lost in the Recent Blizzard in Nebraska.

OMAHA, Feb. 10.—Specials to The Bee show a number of lives were lost in Nebraska during the blizzard.

Eddie Chidester and Steven St. Peters, 14-year-old boys, of Kearney, who had been out hunting were found frozen to death in a cornfield.

M. L. Lessert, residing three miles north of Chadron, is supposed to be buried under a big snow drift and searching parties are looking for his body.

PEACE REIGNS.

There is No Revolution in Honduras and Central America.

NEW YORK, Feb. 10.—Jacob Baiz, consul general of Guatemala and Honduras in the United States received yesterday the following cablegrams from President Carrillas, of Guatemala, and President Bregon, of Honduras:

GUATEMALA, Feb. 9, 1891.

Baiz, New York: The rumors about the revolution in Honduras and Central America are untrue. All Central America is at peace and busily engaged in gathering the coffee crop which will be the largest Guatemala has yet produced. BARRILAS.

HONDURAS, Feb. 9, 1891.

Baiz, New York: Complete peace reigns in Central America. Rumors to the contrary are false. Honduras is all right. BROGAN.

Saloon Dynamited.

FREDERICKSBURG, O., Feb. 10.—Residents of Fredericksburg were awakened at 3 o'clock by a terrific explosion. Upon investigation it was found that the saloon of Fisher Coulter had been dynamited. Some person had exploded a dynamite cartridge in the room occupied by Coulter for his saloon. The sides of the structure and one end were blown out, wrecking it completely. The house proper was occupied by the families of Eugene Louthier, wife and three children, and Julius Shafer and wife. The latter occupied the lower floor and suffered the greatest loss as all their furniture was broken and damaged.

ROSSER & MCCARTHY,

Connecticut's Disgrace.

"There is no one in Connecticut who denies that the Democratic candidate for Comptroller, Mr. Stubb, was elected," says the New York World. "He had a clear majority over all of 1,662 votes. The Republican politicians do not assert the contrary of this. Nevertheless, they decline to give Mr. Stubb his certificate of election."

"They do this because as Comptroller Mr. Stubb will have charge of the State's property and its money. No bill can be paid without his authority. He would certainly not pay over a single dollar to the criminals who have seized upon the Government. He would be their accomplice if he did. Therefore the Republicans are simply refusing to permit the Comptroller whom they admit that the people have chosen, to exercise the functions of his office."

"In the meantime all government is suspended. The wheels of legislation cannot move. The Republican House adjourns from day to day, as if fearing to commit further crime while refusing to do what is right."

"It is the duty of the Democrats of that State to stand fast. They should resist to the utmost the Republican attempt to steal the State. They should show the courage which once made their State famous. It is better that the Legislature should not meet again for a year than that the victorious party should yield and betray the people who voted for its candidates."

Ought to Be Retired to Private Life

Mr. Bennett, the anti-church delegate from Greenup County, consumed considerable of the time of the Constitutional convention Friday morning in a reply to the criticisms of the press correspondents of that body. It was a sickly and impotent attempt at wit and satire and served no other purpose than to consume valuable time. As a lawyer Mr. Bennett is very small potatoes indeed, and it is not a flattering commentary upon the intelligence of the people of Greenup that they elected him to so responsible a position. Mr. Bennett's single speech against the exemption of churches in the matter of taxation ought to retire him to private life for the remainder of his days. —Louisville Post.

Maysville Took the Lead.

The Kentucky towns are all determined to have street railways. A few years ago there were no street railways in the State outside of Louisville, Covington, Newport and Lexington. Maysville was the first of the smaller cities to get tired of walking, and has had a line of cars in successful operation for more than ten years, and has adopted the electric system. Owensboro, Paducah, Henderson, Bowling Green, Winchester, Georgetown and Barboursville are now indulging in a like luxury, while Paris, Frankfort and other towns are talking up plans to supply themselves. Paducah and Lexington have electric lines. Winchester has less than 4,000 population, but the street car line is said to pay very well. Georgetown is still smaller and Barboursville has only about 1,400 people. —Louisville Courier.

Railroad News.

Earnings reports for January make a good impression. The C. and O.'s gross for the month, \$106,046, shows an increase of \$27,129. The Missouri, Kansas and Texas earned \$672,872, a gain of \$23,401, and the Richmond and Danville, \$1,161,300, an increase of \$6,600. —The Continent.

Next week the C. and O. will begin the equipment of their entire system with the Pintch manufactured gas for lighting. The Pintch gas light is a new manufactured gas which gives a brilliant light far superior to electric burners. The New York Central is the only road which has been so equipped with this light, and it has been so satisfactory that its general adoption is only a question of time. The C. and O. will be the second system to use it. —Huntington Herald.

Says the Times: "Louisville merchants will soon receive the benefits of the absorption of the Kentucky Central road by the L. and N. As was announced several days ago, an effort was set on foot to get equal rates from Cincinnati from points in Eastern Kentucky. In some places the relative distances were such that to ask equal rates seemed almost ridiculous. The matter was taken up by the Transportation Committee of the Board of Trade and the L. and N. road decided to make the rates equal in all cases save Maysville and Johnson. These points are nearly three times as far from Louisville as from Cincinnati, yet there is only a difference of 1 cent in the rate as now announced."

STATISTICS.

Some Interesting Figures gleaned From the County Assessor's Books.

The Total Assessed Value of Property this Year Reaches Nearly \$9,500,000.

County Clerk Pearce has completed the work of copying the assessment of Mason County for this year, and forwarded the books to the State Auditor last evening.

The task of copying, proving and making a recapitulation of the Assessor's books is indeed a laborious one. If you have never gone through the long list of figures, you can have only a faint idea of the worry and work required. It takes hours sometimes to find a little mistake, and the Clerk is always glad when he finishes the work and gets the books off for Frankfort.

The books sent up this year from Mason County the State Auditor will find as neat and correct as any he will receive. Those who saw the copy and the recapitulation of same complimented County Clerk Pearce very highly on his excellent work. The recapitulation proved to a cent. Mr. Pearce very kindly permitted the BULLETIN to glean some interesting statistics from the books. Tobacco stripping is progressing rapidly, and the farmers are ready to sell. There are some splendid crops on the Ridge this year.

The people down in Charleston Bottom are scared up on account of a wild cat, which they say they have heard a number of times. People who come home after night feeling pretty good can hear most anything.

I have a cousin who is a printer, says Ex-Mayor J. Loughran, of North Des Moines, Ia. Some time ago he was employed in this city where they were printing circulars for Chamberlain. He had a deep seated cold and terrible cough, and while setting up copy he made up his mind to buy a bottle. It cured him and that was the first I ever knew of Chamberlain's Cough Remedy. I have been strongly in its favor ever since. My own experience and that of my family convinces me that this remedy is the best in the world. That may be strong language, but that is what I think. An Ordinance.

SEC. 1. Be it ordained by the Board of Commissioners of the City of Maysville, That from and after the 1st day of February, 1891, it shall be unlawful for any person owning or harboring any animal of the dog kind, to suffer or permit such animal to run at large in any of the streets, alleys, public landings, market space or commons of the city, without first paying an annual tax to the Mayor, and complying with the provisions hereafter stated.

SEC. 2. That the Mayor shall issue to each applicant, on demand, a numbered certificate stating the applicant has paid the tax for one year, whereby the dog or bitch owned by the applicant shall be permitted to run at large in the city for the period of one year from and after the date of the certificate of the payment of the yearly tax. The Mayor shall cause to be provided brass or copper checks, and he shall furnish each applicant a check marked and numbered, "No. —, Tax Paid, Maysville, Ky.," and the number of the check so furnished must correspond with the number of the certificate issued to the owner of the dog.

SEC. 3. The Mayor shall also keep a register of the name of the applicant, the number of the tax certificate and check. For each certificate and check, the applicant shall, at the time of issuing said check and certificate, and for the yearly renewal thereof, pay over to the Mayor one dollar, to be by him accounted for and paid into the city treasury as follows: 1st. Out of every dollar collected on any animal of the dog kind, the Mayor is to receive twenty-five cents as a compensation for issuing the certificate and check, and the remaining seventy-five cents he is to pay over to the City Treasurer and to take his receipt therefor. It shall be the duty of the Mayor to make monthly reports showing the amount collected as tax on dogs, and the amount of his fees deducted therefrom and the amount paid into the city treasury by him. The register kept by the Mayor shall, at all times, be open to the Committee on Claims and Accounts, who shall go over the register the first of January each year and report how the same has been kept to the City Council.

SEC. 4. It shall be unlawful for any person owning or harboring any animal of the dog kind to suffer or permit such animal to run at large without a substantial collar of leather, iron, copper, brass or other durable material, to which shall also be attached the tax check hereinabove referred to; and it shall be unlawful for any person to suffer or permit such animal to wear any other tax check than the one issued by the Mayor. In case of loss, a duplicate check will be issued by the Mayor in the expense of the applicant.

SEC. 5. That it shall be unlawful for any one to remove either the collar or check from any animal of the dog kind, except upon the consent or order of the owner, or to whom the tax certificate and check is issued.

SEC. 6. It shall be unlawful for any person to entice any animal of the dog kind away from the person owning it and harboring the same, and it shall be unlawful for any person to entice from any street, alley, public common or public landing any tax-paid animal of the dog kind, with intention to deprive the owner of the possession of such animal.

SEC. 7. That it shall be unlawful for any person to beat, ill treat, abuse, or injure any animal of the dog kind, in an immoderate, cruel or unnecessary manner. That it shall be unlawful for any person to open or keep dog pens or dog pits for the purpose of causing or permitting dogs to fight. That it shall be unlawful for any person to cause, or set dogs to fighting.

SEC. 8. That it shall be unlawful for any person owning, harboring or having care of a vicious or fierce dog, to suffer or permit such animal to go unconfined or run at large.

SEC. 9. That it shall be unlawful for any person to throw or deposit any poisoned meat or any poisonous substance in any of the streets, alleys, public landings, market spaces, or commons of the city, for the purpose of destroying any animal of the dog kind.

SEC. 10. That it shall be unlawful for any person to keep or harbor any animal of the dog kind, which by loud and frequent or habitual barking, howling, or yelping, shall cause serious annoyance or disturbance to the neighborhood. Any person who shall allow any animal of the dog kind habitually to remain and be lodged or fed within his or her house, store, or enclosure, shall be considered as harboring the same within the meaning of this ordinance.

SEC. 11. That the Mayor shall provide a pound where he shall cause to be impounded all animals of the dog kind that may at any time be found running at large without wearing the tax-paid check, or that during the term of his proclamation may be found running at large without wearing a muzzle as hereinbefore provided. He may when necessary, designate and detail some one of the police to take charge of the pound. The Mayor shall also require the police from each ward to collect and impound all animals of the dog kind liable to be impounded.

SEC. 12. That it shall be lawful for the police to arrest and take up any and all animals of the dog kind that have not the tax-paid check upon them or muzzled as herein required, that may be found running at large in any of the streets, alleys, public landings, market spaces, or commons of the city, provided that the animal is taken forthwith to the pound. And it shall be unlawful for the police to take up any animal other than those contemplated in this section.

SEC. 13. That all animals of the dog kind may be released from the pound by the owner making demand therefor from the Mayor, and paying the charge of two dollars, which sum is to be accounted for by the Mayor and paid into the city treasury. All animals of the dog kind which may have remained in the pound forty-eight hours, without being claimed or released by the owners, shall be put to death; or if the animal be worthy or valuable, it shall be sold at public outcry to the highest and best bidder at 12 o'clock m. next succeeding the forty-eight hours term and the proceeds of such sales shall be accounted for as above provided.

SEC. 14. That any person or persons offending against any of the provisions of this ordinance shall for each violation upon conviction before the Mayor of the City of Maysville, be fined in any sum not less than five nor more than ten dollars with the cost of prosecution.

SEC. 15. This ordinance shall not apply to animals of the dog kind that may be temporarily within the city limits, either by accident or in charge of the known owner thereof, or some one representing the said owner by his authority.

SEC. 16. All ordinances in conflict with this ordinance are hereby repealed.

SEC. 17. This ordinance shall take effect from and after its passage.

Adopted February 5, 1891.

Dr. J. W. Bergen, Petersburg, Ind.—Dear Sir: I have been a sufferer from Asthma since 1873. I began the use of "Bergen's Asthma Cure" last June. The first week or two after I began using the "Cure" I felt slight symptoms of asthma at different times, but in the last six weeks I have not felt an asthmatic symptom. I now sleep soundly. After all these years of search for relief I can now say "Eureka." Respectfully yours, REV. J. B. HAYLOCK, Pastor C. P. Church.

HILL & CO. THE WALKER WAREHOUSE.

VAN CREEP, KY., January 24, 1891.

Mr. Geo. C. Walker, Cincinnati, O.—My Dear Friend: I am just in receipt of yours enclosing the I. N. Walker Company check for \$1,335.43, for proceeds of sale of eleven hogsheads of tobacco, for which accept my thanks. To say that I am delighted does not do the subject justice. I went so far beyond my fondest expectations that I am really dazed. Yet when I entrusted this tobacco to you, personally I felt sure you would see me out, which I am glad to say you have done to my utmost satisfaction, and for which I will always hold you in grateful remembrance.

I have six or seven hogsheads which I will ship you as soon as I can get it ready—in probably ten days. I will use every effort in my power to get other parties to ship to the Walker.

THE FOLLOWING LINES were written for HECHINGER & CO., to be read at the "Merchants' Carnival," but the poet was too profuse; too long did he spin his muse; time was too limited. That the world may not lose this beautiful production, however, we print it in the BULLETIN:

When Father Adam amid the bowers
And sunny glades of Eden,
Loafed all day among the flowers
Without a book to read in,

Nor any advertisement bold,
I think we may suppose,
As Adam never felt the cold,
He had no need of clothes.

But when Mother Eve came on the scene,
Despite the climate warm,
She clothed him with a fig leaf green,
Like a Texas uniform;

But Satan into the garden came—
The trouble-making brute—
And enviously he did exclaim:
"Oh! Where did you get that suit?"

And Eve, confronting quick the Devil,
Exclaimed: "I am the spouse, sirs!"
Now, Adam, if thy head is level,
Go get a pair of trousers.

The sire of all the human race
Took Mother Eve's advice,
And stepped into our Dave's place,
Who rigged him out so nice.

And Eve in her admiration cried:
"Why, ain't my boy a daisy?"
While Adam smirked and smiled and sighed—
His garments set him crazy.

But Satan, with his cruel smile,
Intrudes his envious nose,
And with a grin that reached a mile
Thus criticised his clothes:

And Adam laughed in Satan's face—
His sneering face so evil—
And cried: "At David's clothing place
The prices beat the Devil."

"Oh! Where did you get your pants,
Your overcoat and vest,
You must be going to a dance
Because you're dressed your best."

Now, Adam was no foolish man,
And while he came here nude,
Somehow he dropped onto the plan
That he might become a dude.

At all events he saw, full well,
That Nature does this fact disclose
While brain may live within a shell,
A man lives in his clothes.

So he put his wits at once to work,
And dressed him like a Prince,
And his tribe, both Mongol, Celt and Turk,
Have done it ever since.

And gave Dame Nature this advice,
Neglecting threads and stitches,
No man looks quite so neat and nice
As a man dressed up in britches.

The secret long time Adam kept,
Until they found it out, sir,
By watching where old Adam slept—
'Twas a tag on his cloth surtout, sirs.

And on it, printed in letters bold—
"At Heck's," on Second street, sirs,
A real charming suit is sold
At a price that can't be beat, sirs.

The rush was great, and men and boys,
Desiring to bedeck, sir,
Their forms with handsome caperoys,
Ran in to deal with "Heck," sir.

THE CARNIVAL

Attracts a Large Crowd to the Opera House and Proves a Success.

The "progressive boom harange, or merchants' carnival" proved a big attraction at the opera house last night. A large crowd was present notwithstanding the very inclement weather, and everybody thoroughly enjoyed the novel entertainment.

The aim of the entertainment was to advertise in a unique and pleasant way the business of those merchants and other citizens who have contributed money to aid the ladies in their laudable move to improve the public library.

These business interests of the city were represented in the main by lovely misses and young ladies, all in pretty costumes, and many of the scenes reminded one of Tennyson's "Dream of Fair Women." There was music, singing and recitations. Everything passed off most pleasantly. The opening and the closing marches, participated by a large number of boys and little misses, young ladies and young men, were charming features of the programme. It was surprising to see how well the little folks had been drilled, and too much credit can not be given Mr. W. LaRue Thomas who spent hours of patient toil in preparing for this part of the entertainment.

The programme was too lengthy to allow of details, and where all did so well, it would be unjust to mention any certain one.

The receipts from the entertainment amounted to nearly \$400.

Mrs. George T. Hunter, Miss Annie Morgan, Mrs. Stanley Lee, Mrs. John M. Hunt, Mrs. C. M. Phister, Mrs. Wm. H. Cox and Mrs. Walter Blatterman were the prime movers in the entertainment. They were untiring in their efforts and deserve the highest praise for their laudable work. Their object is to secure funds to fit up a reading room and make other improvements at the Public Library. The City Council can aid them in their move by granting the following petition which was read during the entertainment last night:

The Maysville City Council, Gentlemen:
When asking votes, as faithful friends, for Council you did run

A very good way to keep your faith
Is by the "Greenwood Fund."
By the terms of Mr. Greenwood's will, a library it must buy.

So a building to erect with it you are not bound to try.

There is enough of it—quite now, to purchase many books.

We give it many anxious thoughts, east toward it longing looks:

The building we already have, 'tis well located, ample

To make good that intention, and public spirited example;

So we ask now that you, your stewardship will resign

And execute that testators' original design.

Two Englishmen who felt the need of interests like this

Have aimed to help by will and deed:

Will you be more remiss?

Our public schools now lead the van

In watchful care for children,

Extend that thoughtful care to man.

With mental food supply him.

The "Greenwood Fund" supplies the place

The "Greenwood Fund" the money.

It but now needs but "your act of grace" to benefit the many.

The ladies of old Maysville dear

Make now this plain petition:

Give us the means, our names to clear

From long endured derision.

We want the books, we want the rooms,

Well lighted, cleaned and heated,

We've earned the right to-night, right here

To be listened to—well treated.

When wives and daughters make the plea

We know you can't resist them.

We leave the matter in your hands

Knowing none that are more trusty.

MR. JOSEPH CLAYBROOK, of the Washington neighborhood, is, under the skillful treatment of Dr. Cleon Owens, fast recovering from an attack of diphtheria. Mr. Claybrook some days ago went with his wagon to carry a load of much-needed supplies to a family stricken with the terrible scourge, and in a few days the disease developed in himself, and he was in a very dangerous condition for some time.

MAYOR WARD, of Palestine, Texas, who assaulted Rev. Sam Jones last week, and got beaten over the head with his own cane by the reverend gentleman, has been requested to resign, and step down and out of the office. The citizens of Palestine held a mass meeting and passed resolutions condemning the Mayor's conduct in the severest terms. His conduct merited just such condemnation, and the citizens ought to kick him out of office.

R. S. HEARN, of Owen County, has been appointed member of the State Board of Equalization vice John W. Greene resigned. The Board is now composed of Mr. Hearn, James R. Rogers, of Paris; Jordan Owen, of Hart County, and S. P. Moss, of Hickman County, and State Auditor Norman, an ex-officio. For the reason there are but ten tax books reported to the Auditor's office as yet by the County Clerks, the meeting of the State Board has necessarily been postponed.

HON. GEORGE R. WENDLING recently delivered his lecture on "Stonewall Jackson" at Knoxville, Tenn., and the Journal, of that city, says: "At times he so held his audience that a heart-beat was almost audible. Again, he sent the electric current through his hearers and the blood rushing through their veins, and as he brought them face to face with some terrible battle one could almost fancy he heard the roar of artillery and saw the smoke and carnage of the field of conflict." Hear him to-night.
